

Arab Republic of Egypt

Development of Desalination Program through Private Sector Participation.

Invitation for Prequalification

The New Urban Communities Authority, the Holding company for Water & Waste Water and the Suez Canal Authority, in their capacity as the competent public entities for the tendering and award of the sea water desalination projects, have mandated the **Sovereign Fund of Egypt** to undertake the procedures to prequalify companies interested in submitting proposals for the development of sea water desalination plants using renewable power sources -with technical assistance from the PPP central unit of the ministry of finance and announce the request for prequalification for the sea water desalination projects which are planned to be tendered out successively.

The prequalification shall be based on four (4) categories with different capacities as specified in the Request of Prequalification.

Prospective Applicants may be individual companies or consortia.

The prequalification criteria and requirements are described in the request for Prequalification.

Persons interested in receiving the request for prequalification shall receive the same electronically in response to a formal request (including official contact details) sent from interested persons to the email of **sovereign Fund of Egypt**.

Deadline for submission of prequalification applications is 3:00 PM Cairo time on Thursday September 22nd, 2022

For more information kindly contact the Italian chamber of commerce Egypt
